## DETAILED ACTION

### *Allowable Subject Matter*

Claims 6 and 11-14 are allowable. Claims 11-13, previously withdrawn from consideration as a result of a restriction requirement, depend from an independent claim which sets forth all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among inventions drawn to separate species, as set forth in the Office action mailed on 1/15/10, is hereby withdrawn** and claims 11-13 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The following is an examiner's statement of reasons for allowance: Applicant has claimed a buffer, which is directed to a door buffer used with furniture, provided detailed structure of the buffer/damper mechanism along with functional language which make the claims allowable over the current prior art of record.

Art Unit: 3677

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
